PROFESSIONAL SUMMARY

Senior .NET Engineer with 20+ years of experience developing mobile, desktop, gaming, and enterprise applications across healthcare, industrial automation, telecommunications, and consumer software industries. Specialized in C#, .NET, Xamarin, and MAUI with strong expertise in cross-platform mobile development, software architecture, REST APIs, and device integration. Experienced working in international Agile teams across Europe and North America, delivering scalable solutions for both enterprise and consumer products.

TECHNICAL SKILLS

C#, .NET, .NET Core, ASP.NET Core, MAUI, Xamarin, Blazor, React, SQL Server, SQLite, REST APIs, Android, iOS, C++, JavaScript, Agile, SCRUM, SAFe, Visual Studio, Rider, Linux

PROFESSIONAL EXPERIENCE

Demant Polska, Warsaw, Poland - *Senior Software Engineer* - Nov. 2023 - Present

- Build and maintain MAUI mobile applications for healthcare-related products using C# and .NET
- Integrate Bluetooth hearing aid connectivity and Auracast features into mobile solutions
- Preserve application architecture quality while introducing new functionality and improvements
- Write unit tests and support code quality initiatives
- Collaborate within SAFe Agile teams across multiple departments

Technologies: C#, MAUI, Android, iOS, .NET Core, xUnit

EPAM Systems, Wroclaw, Poland - *Senior Software Engineer* - Oct. 2021 - Oct. 2023

- Built Xamarin Native Android applications in C# for enterprise mobile solutions
- Integrated REST APIs and implemented local data caching with SQLite
- Wrote unit tests using NUnit and NSubstitute
- Supported Blazor and ASP.NET Core backend teams in full-stack development efforts
- Participated in Agile SCRUM ceremonies and cross-functional collaboration

Technologies: C#, Xamarin Native Android, ASP.NET Core, Blazor, REST APIs, SQLite, NUnit

Qualitech LM - Alcoa, Deschambault, Canada - *System Analyst* - Apr. 2018 - Aug. 2021

- Built desktop and web applications supporting aluminum production operations and industrial workflows
- Integrated SQL databases, cloud APIs, and enterprise services into operational systems
- Automated business workflows and data processing using HelpSystems Automate
- Created data collection and reporting solutions connected to Power BI and OSIsoft PI systems
- Collaborated directly with plant workers and stakeholders to improve operational efficiency

Technologies: C#, JavaScript, React, SQL Server, Power BI, OSIsoft PI

Progi, Trois-Rivières, Canada - *Software Developer* - Sept. 2017 - Feb. 2018

- Enhanced a web-based appointment management platform for the automotive repair industry.

Technologies: PHP, Symfony, MySQL, JavaScript

Cleio, Trois-Rivières, Canada - *Software Developer* - Aug. 2015 - Aug. 2017

- Contributed to the FreeO2 medical platform that automatically adjusted oxygen delivery based on patient condition and oxygen saturation levels
- Built Xamarin mobile applications for Android and iOS used to manage fire systems in large buildings
- Implemented real-time communication and device integration features

Technologies: C#, Xamarin, Android, iOS, Linux, WebSockets

CGI, Shawinigan, Canada - *Consultant* - Feb. 2015 - Aug. 2015

- Contributed to enterprise software for electrical network and workforce management.

Technologies: C#, JavaScript, Oracle

Cleio, Trois-Rivières, Canada - *Software Developer* - Dec. 2014 - Jan. 2015

- Built software components for an automated commercial coffee machine platform
- Implemented communication between frontend applications, backend services, and embedded firmware systems

Technologies: C#, WCF, JavaScript, AngularJS, HTML5, CSS

6i, Trois-Rivières, Canada - *Analyst Programmer* - Apr. 2013 - Nov. 2014

- Maintained and enhanced business management software for the steel manufacturing industry.

Technologies: C#, VB.NET, SQL Server

Dakis, Montréal, Canada - *Analyst Programmer* - Jun. 2011 - Apr. 2013

- Built photo kiosk software used in retail locations across Canada and internationally.

Technologies: C#, WPF

Nokia, Berlin, Germany - *Software Engineer* - Jun. 2007 - May 2011

- Worked on mobile frameworks, GPS navigation software, multiplayer mobile games, and device APIs for Symbian and Nokia N900 platforms within international Agile teams

Technologies: C++, Symbian, C#, Java, J2ME, JavaScript, CSS

Acony Games, Villingen-Schwenningen, Germany - *Game Programmer*

September 2006 - June 2007

- Implemented gameplay mechanics and interactive object behavior for the first-person shooter game Parabellum.

Technologies: C++, Unreal Script

Beenox, Québec City, Canada - *3D Programmer* - Nov. 2005 - Aug. 2006

- Adapted console games including Marvel Ultimate Alliance and X-Men: The Official Game for PC platforms.

Technologies: C++, DirectX, 3D Studio Max

EA Mobile, Montréal, Canada - *Porting Programmer* - Jul. 2004 - Nov. 2005

- Ported and customized mobile games for multiple devices and service providers

Technologies: C++, Java (J2ME)

Finkl Steel, Sorel-Tracy, Canada - *Programmer* - Mar. 2002 - Aug. 2003

- Built production scheduling software supporting steel manufacturing operations.

Technologies: VB 6, VB.Net, Crystal Report, SQL Server

EDUCATION

Bachelor's Degree in Computer Science - 2005

Université du Québec à Trois-Rivières

Computer Science (semester abroad) - 2005

Université Grenoble Alpes, Grenoble, France

Technical College Degree in Computer Science - 2002

Cégep de Sorel-Tracy, Canada

LANGUAGES

- French - native proficiency
- English - bilingual proficiency
